

# **AI-powered Chatbots and Multi-agent Live Chat Solutions**

Kreesalis is a cutting-edge technology company that specializes in delivering AI-powered chatbots and multi-agent live chat solutions to businesses of all sizes. Our innovative platforms empower seamless customer interactions across a wide range of communication channels, ensuring that your customers always receive the personalized attention and support they deserve.

# Empowering Seamless Customer Interactions Across Communication Channels

Kreesalis' AI-powered chatbots and live chat solutions are designed to streamline your customer communication processes, allowing you to engage with your clients across a variety of platforms, including **Web-chat, Instagram, Messenger, Google Chat, Email, SMS, and WhatsApp**. With these robust and versatile tools, you can ensure that your customers receive timely and personalized responses to their inquiries, no matter how they choose to reach out to your business.

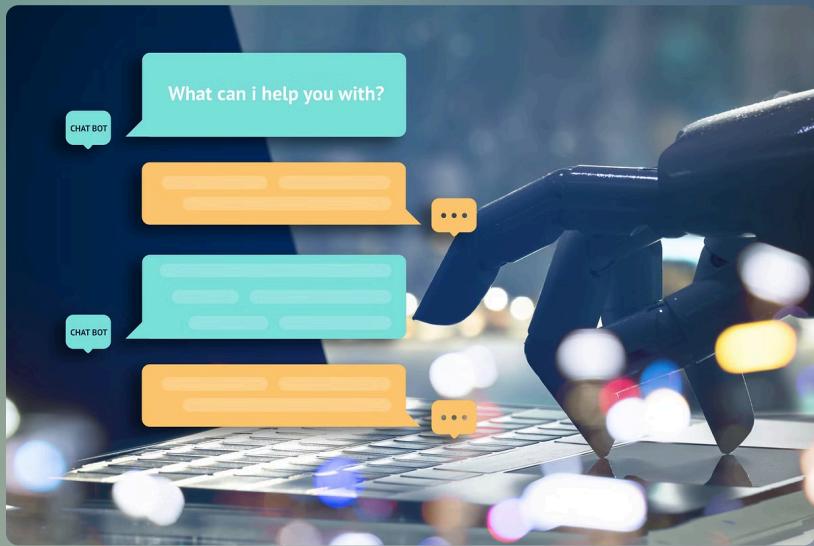

# **Order booking, Appointment booking & Lead generation**

Kreesalis' cutting-edge technology empowers your business to capture and fetch data seamlessly, allowing you to efficiently manage order booking, appointment scheduling, and lead generation. With automated notifications and personalized communication, you can ensure that your customers always feel valued and their needs are being met in a timely and efficient manner.

# Personalised Communication

Kreesalis' solutions go beyond simple customer service by enabling personalized communication with your clients. Using advanced AI algorithms, the platform can send tailored messages and notifications to your customers via chat, email, SMS, and WhatsApp, ensuring that your brand voice and messaging are consistently delivered across all communication channels.

# Customer Support: 24/7 Q&A Bots

Kreesalis' AI-powered chatbots are designed to provide around-the-clock customer support, ensuring that your clients can receive answers to their questions in a conversational and engaging manner at any time of the day or night. These intelligent assistants are trained to handle a wide range of inquiries, from product information to troubleshooting, making them an invaluable asset in enhancing your customer satisfaction and loyalty.

# Cost-effective SaaS Options and Custom Chatbots

## SaaS Solutions

Kreesalis offers cost-effective SaaS (Software-as-a-Service) options, allowing businesses of all sizes to leverage the power of AI-powered chatbots and live chat solutions without the need for significant upfront investment or IT infrastructure.

## Custom Chatbots

For businesses with more specific needs, Kreesalis also provides custom-built chatbots, utilizing advanced language models and industry-specific knowledge to deliver tailored solutions that cater to the unique requirements of your business.

# Cutting-Edge AI and Language Models

## RAG Agents

Kreesalis' custom chatbots are powered by advanced Retrieval Augmented Generation (RAG) agents, which combine the strengths of language models and knowledge retrieval to provide accurate and contextual responses to customer inquiries.

## LLM Models

By leveraging state-of-the-art Large Language Models (LLMs), Kreesalis' chatbots are able to engage in natural, human-like conversations, understanding the nuances of customer communication and delivering personalized solutions.

## Langchain Integration

Kreesalis seamlessly integrates Langchain, a powerful framework for building applications with large language models, to create custom chatbots tailored to specific industries and business needs.
